Product Description - *Beyond Literate Western Models* harvests the best insights from the 2012 Orality Consultation by bringing into one volume the insights of theological educators and experts on oral cultures from around the world. It addresses a wide range of practical issues, such as training methods, the relationship of non-formal education to traditional formal theological education programs and the importance of the narrative structure of the Bible. It describes how theological education can empower oral learners and leaders, especially in the rapidly-growing Christian movements in Africa, Asia and Latin America. Shipping charges apply **Original price: \$14.95 \$11.50**
